

# X\_Light

Design Alberto Turolo

800x800 - 1000x1000 - 1200x1200 - 1600x1600

1600x800 - 2000x1000 mm

h. 450 - 740 - 1100 mm

Designed with sustainability in mind, the exclusive X\_LIGHT collection is a range of outdoor furniture that's sleek, comfortable and easy to manoeuvre.

Crafted in Italy, this dining table is made from recycled carbon steel sourced from the automotive industry, qualities to maintain a high-quality finish whatever the season.

Porcelain stoneware Marble or Stone effect ZERO EMISSION cover option for the versions PLUS and SLATTED.

The design also features self-levelling legs for optimum functionality, seamlessly balancing out uneven ground.

It is a collection of fixed tables in different sizes characterized by a clean aesthetic and rigorous lines.

The intersection of the lines between the top and the leg gives it a sophisticated, non-trivial look.

The choice of using steel for both the shelf and the legs make the product 100% recyclable at the end of the cycle.

PLUS with Porcelain Stoneware Marble effect Version

SLATTED Cendre Stone Effect Version
